

Executive Summary

Our Vision

The unity of happy bright people and a sustainable world with prosperity for all.

Our Mission

Support sustainability and bring prosperity by tapping into banking with the blockchain-2.0 powered 2local platform, which rewards local-2-local and sustainable purchases. The 2local platform is equipped with a payment app, including a marketplace with local and sustainable companies, and a monthly cashback for payments with L2L coins that are designed to rise in value.

What We Do

The 2local is an innovative blockchain-2.0 powered loyalty platform that is tapping into banking with L2L coin which are designed to rise in value. The goal is to achieve a sustainable world with prosperity for all. The 2local platform has a payment app with a decentralized L2L wallet, a marketplace for consumers to connect with local 2local and sustainable companies. Using the L2L coin to perform transactions with participating companies will result in a monthly cashback, and a rise in the value of the L2L coin, cutting out high transfer costs while providing a free loyalty program.

Value Proposition

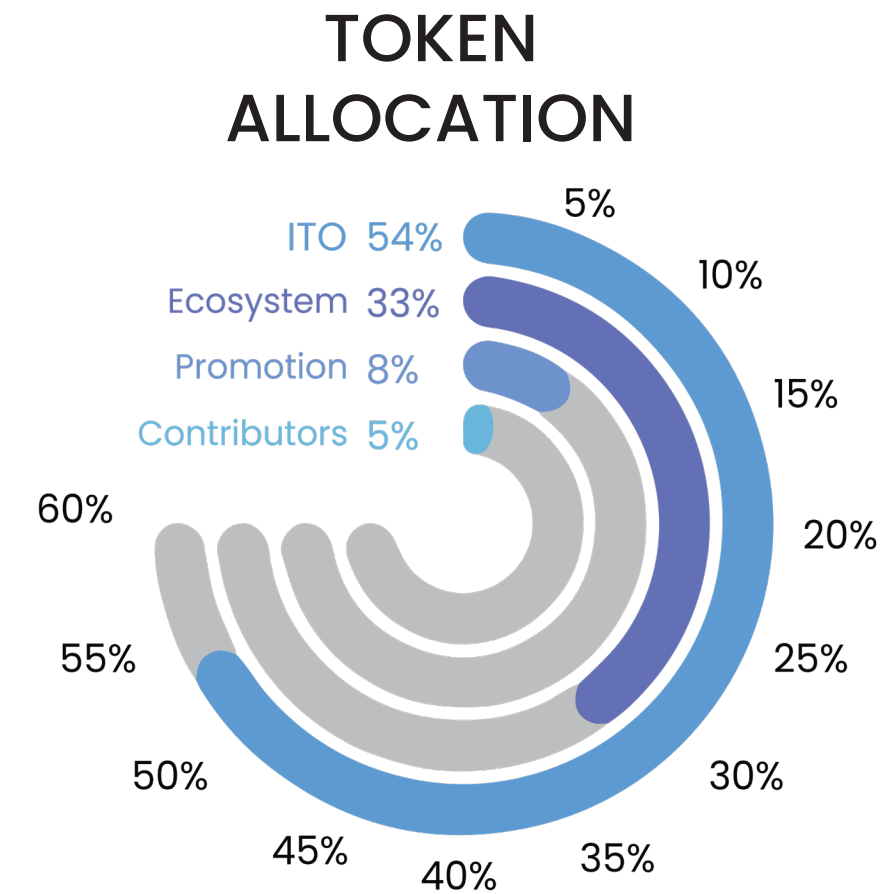

We don't make profit from people we create value with people. Supporting sustainability and prosperity for all is done in a unique way, with cashback and a coin designed to rise in value. Providing a free loyalty platform for local-2-local or sustainable companies. We use proprietary technology based on blockchain-2.0 which is highly scalable, secure, ultra-fast and low energy consuming.

The Market

We believe that supporting and developing sustainable solutions for the world is necessary to pave the path to prosperity. This is a B2B and B2P multi-trillion dollar industry.
